MARK STANOCH ADDS ANOTHER FIRST TO HIS ACHIEVEMENTS IN CAMPAIGN FOR MANATEE SCHOOL BOARD DISTRICT 1

Parrish, FL. Mark Stanoch continues to rack up an impressive list of “FIRSTS” in his bid to become the School Board Member from District 1. Most recently, he spoke to his 2000th constituent since beginning the petition phase of his campaign in January. “Two thousand down, another 10,000+ to go,” quipped Mark to his Campaign Staff and Supporters this week. “That’s our goal!”

Mark is the FIRST Manatee School Board Candidate in District 1 to:

- declare his candidacy (May 2023);
- actively and continuously conduct constituent and stakeholder focus groups (beginning August 2023);
- obtain the required number of valid signatures on his candidate petitions (February 2024);
- secure more than 1000 signed petitions (April 2024).

As a result, and unlike others, Mark will not “buy” his way onto the ballot in the August 20th Primary Election. He has a deeper, unbiased, and independent understanding of the challenges that prevent the School District of Manatee County (SDMC) from becoming “A-rated.” Mark is continuing to meet District 1 constituents to listen to their ideas and concerns, share information and secure additional support. This is a grassroots campaign, not beholden to any special interests.

“I am not bought and paid for by deep-pocketed special interests nor am I beholden to any national agendas. We must provide approaches that ensure high-quality educational opportunities and outcomes in Manatee County. We must equip and allow teachers to focus on their mission. I am committed to the Academic success of ALL children. Creatively solving challenges is necessary and avoiding distractions is critical if we are to improve and succeed.”

Mark believes that People, Process and Technology combine to make complex organizations like SDMC succeed... or fail. He is the only District 1 candidate that has the knowledge, experience, and a track record of success in complex organizations that will help the School District improve.

“Business Systems and most importantly, Learning Management Systems and technologies are part of the dynamic that we need to exploit. I am the only qualified, seasoned District 1 candidate with the acumen and experience to fill the knowledge and leadership void on the Board. I will help mitigate risks and address challenges in our complex academic organization. We must do better, spend smartly, ensure that teachers are compensated competitively for their efforts, and classrooms are appropriately equipped to be on the path towards academic excellence. Mediocre performance and its acceptance must be replaced: improving student performance and outcomes are my focus.”

We WILL do better... together! Learn more at VoteMarkStanoch.com
